Section I Abbreviations

ABL ammunition basic load	AUTODIN Automatic Digital Network	CIF central issue facility
A&E ammunition and explosives	AUTOSEVOCOM Automatic Secure Voice Communications Network	CIIC controlled inventory item code
AAC acquisition advice code	AUTOVON Automatic Voice Network	CLSF COMSEC logistic support facilities
AAFA Army aviation flight activities	AV aviation	CMCS COMSEC Materiel Control System
AAR administrative adjustment report	AVCRAD aviation classification repair activity depots	CMDSA COMSEC Materiel Direct Support Activity
AASF Army aviation support facilities	AVFUEL aviation fuel	CNGB Chief, National Guard Bureau
ACCOR Army COMSEC Central Office of Record	AVGAS aviation gasoline	COEI components of end items
ACWT average customer wait time	AVIM aviation intermediate maintenance	COMSEC communication security
ADP automated data processing	AVUM aviation unit maintenance	CONUS continental United States
ADPE automated data processing equipment	AVOIL aviation oil	COPARS contractor operated parts store
ALC Accounting Legend Code	AWOL absent without leave	COSCOM Corps Support Command
ALW allowance	BII basic issue item	CDSP Command Supply Discipline Program
AMC Army Materiel Command	BOI basis of issue	CRP central receiving point
AMDF Army Master Data File	BUR bottoms-up reconciliation	CS combat stockage
ANMCS anticipated not mission capable supply	CAGE Commercial and Government Entity Code	CTA common table of allowances
AR Army Regulation	CAM chemical agent monitor	CXL canceled
ARC accounting requirements code	CBS-X Continuing Balance System-Expanded	DA Department of the Army
ARI automatic return item	CCA Central Collection Agency	DAMPL Department of the Army Materiel Priority List
ARNG Army National Guard	CCE commercial construction equipment	DAO division ammunition officer
ASIOE Associated Support Items of Equipment	CCI controlled cryptographic item	DFSC Defense Fuel Support Center
ASL authorized stockage list	CCISP controlled cryptographic item serialization program	DFSP Defense Fuel Support Point
ASP ammunition supply point	CEAS commissary equipment authorization schedule	DGSC Defense General Supply Center
	CG Commanding General	DIC document identifier code
		DISCOM division support command

DLA Defense Logistics Agency	FOB free on board	JTX joint training exercise
DLOGS Division Logistics	FSC Federal supply class	LCA logistic control activity
DMSO Division Medical Supply Officer	FSG Federal supply group	LIF Logistics Intelligence File
DOD Department of Defense	FTX field training exercise	LIN line item number
DODAAC Department of Defense Activity Address Code	FWT fair wear and tear	LTC Lieutenant Colonel
DODIC Department of Defense Small Arms Serialization Program	FY fiscal year	MACOM Major Army Command
DOL director of logistics	GBL government bill of lading	MAL master authorization list
DRMO Defense Reutilization and Marketing Office	GOCO Government-owned, contractor-operated	MATCAT materiel category
DS direct support	GS general support	MATES mobilization and training equipment sites
EC essentiality code	GSA General Services Administration Headquarters, Department of the Army	MBPAS Monthly Bulk Petroleum Accounting Summary
ECS equipment concentration site	HRH hand receipt holder	MCN management control number
EDD estimated delivery date	IAR Inventory Adjustment Report	MDC magazine data card
EIC end item code	ICP Inventory Control Point	MDS model/design/series
EIR equipment improvement recommendation	IDS intermediate direct support	MHE material handling equipment
EOD explosive ordnance disposal	IFMS interagency fleet management system	MILSTRIP Military Standard Requisitioning and Issue Procedures
EPA Environmental Protection Agency	IGS intermediate general support	MOA memorandum of agreement
ERC equipment readiness code	IMPE information management processing equipment	MOGAS motor gasoline
ERPSL essential repair parts stockage list	IMPL initial mandatory parts list	MOS military occupational specialty
ESR equipment status report	INSCOM U.S. Army Intelligence and Security Command	MOU memorandum of understanding
FAD Force/Activity Designator	IPD issue priority designator	MPL mandatory parts list
FAO finance and accounting office	LBAD Lexington-Blue Grass Army Depot	MPN manufacturer's part number
FAR Federal Acquisition Regulation	ISD installation supply division	MS minimum stockage
FMS foreign military sales	JTA Joint Table of Allowances	MSC Military Sealift Command, Major Subordinate Command

MSE Mobile Subscriber Equipment	PD priority designator	SC supply catalog
MTOE modification table of organization and equipment	PHRH primary hand receipt holder	SDD standard delivery date
MUC maintenance use code	PLL prescribed load list	SER serial number
MWO modification work order	POL petroleum oils and lubricants	SF standard form
NCO noncommissioned officer	POM preparation for overseas movement	SFC sergeant first class
NDCC National Defense Cadet Corps	QASAS Quality Assurance Specialist Ammunition Surveillance	SIMS-X Selected Item Management System-Expanded
NGB National Guard Bureau	QDR quality deficiency report	SINCGARS Single Channel Ground Airborne Radio system
NGR National Guard Regulation	QPBS Quantity possessed by soldiers	SKO sets, kits, and outfits
NICP National Inventory Control Point (also see ICP)	QSL quality status listing	SLAC support list allowance card
NIIN national item identification number	QSS quick supply store	SMC State Marksmanship Coordinator
NLT not later than	RATTS Radio Active Testing and Tracking System	SN serial number
NMCS not mission capable supply	RC Reserve Component; recoverability code	SOP standard operating procedure
NSN national stock number	RDD required delivery date	SOS source of supply
NTV non-tactical vehicle	REQ-VAL requisition validation	SPBS Standard Property Book System
OCIE organizational clothing and individual equipment	RICC reportable item control code	SPBS-R Standard Property Book System-Redesigned
OCONUS Outside Continental United States	ROD report of discrepancy	SPBS-R-I-TDA Standard Property Book System-Redesigned - Installation- TDA
OIC officer in charge	ROTC Reserve Officer's Training Corps	SSA supply support activity
OL operating level	RPSTL repair parts special tools list	SSG staff sergeant
OMA Operation Maintenance, Army	RX repairable exchange	SSSC self-service supply center
ORF operational readiness float	SA stockage allowance	STAMIS Standard Army Management Information System
OSHA Occupational Safety Health Agency	SAILS Standard Army Intermediate Level Supply System	STARC State Army Reserve Command
PBO Property Book Officer	SASSO small arms serialization surety officer	TAAC Training Ammunition Authorization Committee
PCS permanent change of station	SAVAR Standard Army Validation and Reconciliation System	TAACOM Theater Army Command

Section II **Terms**

Accountability
Obligation to keep records of property, documents, or funds, such as identification data, gains, losses, dues-in, dues-out and balances on hand or in use.

Accountable officer
Person officially appointed in writing to maintain a formal set of accounting records of property or funds. This person may or may not have physical possession of the property or funds. There are three types of supply accountable officers as defined below.

a. Transportation officer Accountable for property entrusted to him or her for shipment.

b. Stock record officer Accountable for supplies being held for issue from time of receipt until issued, shipped, or dropped from accountability.

c. Property book officer. Accountable for property upon receipt and until subsequently turned in, used (consumed) for authorized purposes, or dropped from accountability.

(Hand receipt holders are not considered accountable officers.)

Average customer wait time
Average time in days, developed at a supply support activity, required to satisfy customer demands, regardless of whether the demand was for a stocked or unstocked item, or whether or not the demand was satisfied from stock on hand at the supply support activity.

Backorder
That portion of requested stock not immediately available for issue and not passed to another source of supply for action. Record of obligation to file the backorder is known synonymously as a backorder or due-out.

Basic load
Supplies kept by using units for use in combat (for other than ammunition). The quantity of each item of supply in a basic load is related to the number of days in combat the unit may be sustained without resupply.

Bill of lading
Includes Government bills of lading issued by the Army (as defined in AR 55-355) and commercial bills of lading for transportation services administered by the Army. (For exception of "FOB origin shipments", see para 19.)

Components
a. Components of end items.
b. Components of assemblages. Items identified in a supply catalog component listing (SC/CL) as a part of a set, kits, and outfits (SKO), or other assemblage.

Controlled cryptographic items
CCIs are described as secure telecommunications or information handling equipment, associated cryptographic components, or other hardware items which perform a critical COMSEC function. Items so designated are unclassified but controlled and will bear the designation "controlled cryptographic item" or "CCI."

Controlled inventory items
Items with characteristics requiring special identification accounting, security, or handling to ensure their safeguard. These items, in order of degree of control normally exercised, are as follows:

a. Classified item.
b. Sensitive item. Materiel requiring a high degree of protection and control because of statutory requirements or regulations; high value, highly technical, or hazardous items; and small arms, ammunition, explosives, and demolition materiel. (See controlled inventory item codes (CIIC) 1-6, 7, 8, 9, S, N, P, Q, R, and Y (night vision devices) in the AMDF as explained by AR 708-1.)

c. Pilferable item. Materiel having ready resale value or civilian application to personal possession and, therefore, especially subject to theft. Examples are binoculars, projectors, cigarettes, pagers, handheld two-

way radios, cameras, tapes, or recorders. (See CIIC codes in the AMDF as explained by AR 708-1)

Durable item

An item of Army property coded with an ARC of "D" in the AMDF. Durable items do not require property book accountability after issue from the stock record account, but do require hand receipt control when issued to the user. Commercial and fabricated items similar to items coded "D" in the AMDF are considered durable items. Note: This category consists of selected hand tools with a unit price greater than \$5. (AR 710-2, DA Pam 710-2-1, DA Pam 710-2-2, AR 735-5).

Emergency requirement

An unexpected, serious occurrence or situation urgently requiring prompt action and immediate remedy.

Note. To qualify for an emergency requirement the situation must support one of the following:

- a. To save human lives or to relieve human sufferings.
- b. To repair emergency equipment.
- c. To support contingency operations when the operation is imminent (i.e., declared simple alert) or is in progress.

Expendable items

An item of Army property coded with an ARC of "X" in the AMDF. Expendable items require no formal accountability after issue from a stock record account. Commercial and fabricated items similar to items coded "X" in the AMDF are considered expendable items.

Note. This category consists of items which are consumed during normal usage such as paint, rations, gasoline, office supplies, or are merged into another entity when used for their intended purpose, such as nuts and bolts, construction materiel, repair parts, components and assemblies, and so on. This includes all class 1, 3, 5 (except 5L), and 9 items, and those class 2, 4, and 10 items which are not end items or have a unit price of less than a \$100. Also included is office furniture in FSC 7110, 7125 and 7195 with a unit cost of less than \$300. OCIE authorized by CTA 50-900 will be accounted for in the same manner as nonexpendable property regardless of the ARC reflected in the AMDF.

Hand receipt

A signed document acknowledging acceptance of and responsibility for items of property listed thereon that are issued for use and are to be returned.

Handtools

Any hand-held devices either manually operated or power driven that are portable, light, weight and small enough to be used by a craftsman in accomplishing his trade. They include such items as wrenches, screwdrivers, hammers, chisels, pliers, saws, impact wrenches and such other small devices that are normally held in a tool box.

Ink entry

A legible entry made in indelible ink using a ballpoint, felt tip, or fountain pen.

Major Army command

A command directly subordinate to, established by authority of, and specifically designated by Headquarters, Department of the Army. Army component commands of unified and specified commands are major Army commands.

Nonexpendable items

An item of Army property coded with an ARC of "N" in the AMDF. Nonexpendable items require property book accountability after issue from the stock record account. Commercial and fabricated items, similar to items coded "N" in the AMDF are considered nonexpendable items. Note: This category consists of end items of equipment which are separately identified. It includes all class 7, all items assigned a LIN in SB 700-20 other than officer furniture in FSC 7110, 7125 and 7195 with a unit cost of less than \$300, and other selected class 2,4, and 10 end items. OCIE authorized by CTA 50-900 will be accounted for in the same manner as nonexpendable supplies regardless of the ARC reflected in AMDF.

Nonrecurring demand

Request made for a requirement known to be a one-time occurrence will be coded nonrecurring when demand is not to be considered in requisitioning objective computations.

Operational load

A quantity of supplies (in a given supply class) kept by using units for use in peacetime operations, based on various authorizations.

Order ship time level

The quantity of stock intended to sustain normal operations during the interval between submission of replenishment requisition until stock receipt is posted to the account.

Organizational property

Property authorized to a unit or organization under an MTOE or deployable TDA authorization document and all CTA property which deploys with the unit.

Organizational property book

Record of property issued under an MTOE or deployable TDA authorization document. CTA items of equipment that are mission-related to all TOE units Army-wide are considered organizational property. Examples of this type of equipment can be found in AR 71-13.

Parent Organization

May be either a TOE or TDA organization. For TOE, a numbered organization of battalion or equivalent level; or company, battery, troop, platoon, detachment, or team not an organic element of a battalion or other parent

organization. For TDA, any TDA organization assigned a unique TDA number.

Parent unit identification code

The UIC specifically associated with a parent organization and from which other UICs may be derived. Designator of a parent UIC is AA; in the case of TDA augmentations to TOE organizations, 90 through 99.

Prescribed load list

A list of unit maintenance repair parts that are demand supported, non-demand supported, and specified initial stockage repair parts for newly introduced end items.

Primary hand receipt

Hand receipt between an accountable officer and the person receiving the property and assuming direct responsibility for it.

Primary hand receipt holder

A person who is hand-received property directly from the accountable officer.

Property

The terms: Government property, Army property, and property include all property under DA control except property accounted for as owned by an NAF activity. References to property of other U.S. Government agencies or of foreign governments clearly will be identified as such; for example, Air Force, State Department, or Republic of Korea property. All property issued by the United States to the ARNG remains the property of the United States, under section 710(A), title 32, United States Code.

Property book

A formally designated set of property records maintained under AR 712 to account for organizational and installation property in a using unit.

Property records and property account

General terms referring to any record of property. This includes not only formal SRAs maintained in item or monetary terms by accountable officers, but also organizational property books, installation property books, and individual clothing and equipment records, or any other organized files of property records.

Recurring demand

A request made periodically or anticipated to be repetitive for materiel to be used immediately or for stock replenishment. Most demands are recurring. A demand is, therefore, considered recurring when doubt exists as to its nature.

Reorder point

That point, expressed as a quantity of stock, at which time a stock replenishment requisition would be submitted to maintain a stockage objective. This consists of the sum of the safety level, order ship time (OST), and (if applicable) the repair cycle level.

Repair cycle level

Quantity of reparable type items required for stockage, based on average monthly repair rate and repair cycle time.

Repair cycle time

A parameter, expressed as an average, used in calculation of repair cycle level of stock. The cycle begins on acceptance of a job by maintenance and ends when the formerly un-serviceable asset is returned to stock in a serviceable condition.

Reparable Exchange Activity

An element of a supply support activity providing exchange service for reparable components. Exchange of an un-serviceable reparable for a serviceable like item is made on a request for issue or turn-in document.

Requisition

A supply request initiated by the SSA in a MILSTRIP format or a unit supply request converted to a MILSTRIP format by the SSA for submission to the next higher source of supply.

Requisition objective

The RO is the maximum quantity of an item authorized to be on hand and on order at any time.

**Selected Item Management System--
Expanded**

System of centralized asset knowledge and control (vertical materiel management) of selected secondary items. The goal of SIMS-X is to improve the utilization of assets already in the supply system. The wholesale item manager is provided data of on-hand quantities and RO by all owning stock record accounts.

Small arms

Handguns; shoulder-fired weapons; light automatic weapons up to and including .50 caliber machine-gun; multibarrel machine-guns such as the 7.62mm M134; recoilless rifles up to and including 106mm; mortars up to and including 81mm- rocket launchers, man-portable; grenade launchers, rifle and shoulder-fired; flame-throwers, and individually operated weapons that are portable or can be fired without special mounts or firing devices and that have potential use in civil disturbances and are vulnerable to theft.

Stock number

A number used to identify an item of supply. Types of numbers used are listed below.

- a. NSN or NATO stock number.
- b. Commercial and Government Entity Code.
- c. Management control number.
- d. DODAC.
- e. Army commercial vehicle code.
- f. Any other identifying number when one of the types in (I) through (5) above has not been assigned.

Subhand receipt

A hand receipt for property from a primary hand receipt holder or a subhand receipt holder to a person subsequently given the property for care, use, safekeeping or further issue. It does not transfer direct responsibility for the property to the subhand receipt holder, but does transfer personal responsibility.

System Furniture

An arrangement of modular components utilizing vertical space which meets prescribed functional work station requirements. The components consist of work surfaces, storage units, power and communications outlets and privacy panels which interconnect and are assembled into work stations of various sizes, configurations, and complexity. This does not include conventional office furniture; that is, freestanding units and partitions available from the Federal supply system. Systems furniture, as defined, is authorized by Chapter 14, CTA 50-909.

Section III**Special Abbreviations and Terms**

This section contains no entries.
